Bubble Tea Shop

國內首創開發「智能化無人茶飲店」，無人化操作提高工作效率，提升產值，並能穩定製作飲料。自動化製作飲料：加粉圓、冰、糖、熱水、果汁、茶品充填、封膜、印標等，能快速完成、節省時間，並降低不良率，穩定飲料品質。Robot整合前台智慧點餐系統及後台製作流程，提升點餐速度與品質。

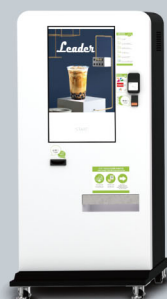

Taiwan's first independently developed Robotic Bubble Milk Tea Shop. Automated operation, enhances work efficiency, increases value and profit, and improve work stability. Automatically perform bubble, ice, sugar, hot water, juice, the tea filling, film sealing, labeling and other tasks of the beverage, which can be completed quickly, save time, reduce the defect rate, and stabilize the quality of the beverage. The robot will integrate the front-end intelligent ordering system and back-end production process to further improve the speed and quality of ordering.

產品規格 Product specification

- 二個取餐口（不含裝潢）長2460 / 寬2850 / 高2300 mm
2 Pick-Up gate (not include decoration) 2460x2850x2300 (WxDxH) mm
- 三個取餐口（不含裝潢）長2750 / 寬3250 / 高2300 mm
3 Pick-Up gate (not include decoration) 2750x3250x2300 (WxDxH) mm
- 電源裝置：2-220V 40A + E
Power Device: 2-220V 40A + E
- 機台淨重：約850 kg
Total Machine Weight: About 850 kg
- 進水管道：1/2" (4分管)水壓1Kg/cm²以上
Inlet water Pipe: 1/2" (DN15) Hose Water Pressure 1Kg/cm² at Least
- 排水管道：3/4" (6分管)
Outlet water Pipe: 3/4" (DN20) Hose

獲獎與認證 Award and Certificate

- 歐盟CE / ETL (UL和CSA) / ISO9001:2015 / 國內外專利
Machine with CE / ETL (UL和CSA) / ISO9001:2015 / patent
- 榮獲 國家品牌玉山獎暨全國首獎
National Brand Yushan Award (National First Prize)

機台本身不具裝潢外觀，若需要可免費提供裝潢模板供參考，大幅減少開店時程。

Machine doesn't have the decoration on the appearance, you can easily create your own stylish shop. If you have no idea about your decoration, Leader could offer the template for reference as well. It could save a lot of time for starting a business.

產品功能與特色 Features

- 智能化點餐介面容易操作，提供發票和QR code單
Simple Human Machine Interface. (including invoice, QRcode receipt).
- 多元付款方式
(1) 電子票證：悠遊卡 / 愛金卡 / 一卡通
(2) 電子支付：VISA、Mastercard、JCB、LINE Pay、Apple Pay、Google Pay、Samsung Pay
Various payment methods are provided (e-Pay such as VISA、Mastercard、JCB、LINE Pay、Apple Pay、Google Pay、Samsung Pay, e-Ticket such as EasyCard, icash and iPASS)
- 自動化整合周邊設備，包含：自動落杯、珍珠充填（或粉末充填）、製冰機、果糖機、果汁機、飲料充填、封膜機、標籤噴印等。
Automatic integration of peripheral equipment including automatic cup supplier, bubble supplier (or powder filling), ice maker, fructose machine, juice machine, beverage filling, film sealing machine, label printing, etc.
- 單筆訂單最多可點9杯飲品（3取餐口款），或6杯飲品（2取餐口款），可連續接單。
For each order, the machine could make up to 9 cups (for 3 Pick-Up gate) or 6 cups (for 2 Pick-Up gate) at a time, and it could continuously receive orders.
- 菜單可設定48種品項（依照飲料不同比例，添加配料、珍珠、四種糖漿、冰/熱水及搖杯）
The menu can set up to 48 items (each item can be set by setting the proportion of different drinks, whether to add topping, whether to add bubble, 4 different syrups, ice / hot water and whether to shake the cup to combine items)
- 即時發送機台狀態及補料通知、定時發送銷售紀錄（支援Line APP）
Supporting LINE APP, if there is any material shortage or malfunction, where the information regarding machine status can be sent to the vendors in real time or periodically.
- 後台管理系統：每日消費統計記錄（品項、數量、金額、時間）
Backstage management system calculates all the records of consumption everyday (item, quantity, amount and time)
- 具備遠端伺服器監控系統，透過手機或電腦可即時檢查機器運作情況
Surveillance system enables the vendors to check the machine operations simply via the phones or PC in real time.
- 具備API功能，可串聯POS系統或APP整合
The machine has API function and can be integrated with the client's POS system. So you can also use your own pos system or APP to order coffee, through the API function, you can integrate it into our machine.
